I'm on my 3rd acer right monitor right now. I was going to go for a 4th try, but as soon as i saw this, nope nope, so long acer.

I'm definitely getting this one. Not to mention its matte finish and asus, who i would trust in quality 😊

. It appears so. Hopefully they set the price at 800 to compete with acer.

11/10 buying it pending reviews. gg Acer.

Now we need release date and prices.
