## About This Game

The classic Gauntlet 4-player co-op action gameplay returns in a completely new experience! Play as one of four distinct heroes in an intense monster filled dungeon brawler with a combination of both uniquely built and randomly generated levels to explore. Battle the endless hordes of foes as you and your friends fight for treasure and glory via both local and online co-op multiplayer. Invade the Darkness!

### New Gauntlet Experience

Classic dungeon crawling action is melded with innovative new features for the ultimate Gauntlet challenge.

### Online and Couch Co-op Multiplayer

Explore on your own if you dare or play with friends in 4-player same-screen and online co-op. Your friends can become foes as you compete to see who can claim the most kills and the most gold.

### Four Classic Characters

Gauntlet's four classic characters: Warrior, Valkyrie, Elf, and Wizard return but with more distinctive play styles and their own unique skills.

The Gauntlet coin-op from '85 holds some fond memories for me and any modern conversion was going to have to stand up to a rigorous critique. I'm so happy to say that the team behind this version has done a sterling job. This is the best hack-and-slash dungeon crawler that I know of.

The five characters (one character is in purchaseable DLC) have just enough different moves, which are fun in their executions to keep the game from feeling mundane. Each character that you play with does make you feel like the hero! You get the chance to demolish large hordes of monsters, which either clear the way or save your team mates from taking hits (or dying!).

- G:14 = Gauntlet 2014  
 - G:SE = Gauntlet Slayer Edition

Gauntlet wasn't amongst the dizzying background games, nor in my thoughts when I was still frequently diving into arcades. Years later, I found an arcade that had all the cabinets, alongside Gauntlet Legends. I fell in love with the idea of the games. The archetypal class quartet. Randomized labyrinths. Monster Spawners. Keys. Traps. Treasure. It's such

a brilliant combination that makes for an excellent dungeon-crawler.

The classic games, by today's standards, are easily shallow.

**WARNING:** If you are looking for a storytelling game move along  
**WARNING2:** long review

Firstly,i was not a gauntlet gamer when it was out for nes so i cant say much,i just bought it because i was curious after watching some gameplay videos and a good friend of mine suggested me that for the coop, however, i will try to describe every in game thing without spoiling it.

-CLASSES: You will have access from the very beginning to every class without restrictions except for the Necromancer which is actually unlocked for 5€ as dlc.

**Positive**

+ A good graphical upgrade/re-creation of the original Gauntlet, with unique designs and animations for each character, as well as voice-acting for each of them  
+ The integration of 4 player co-op makes the journey through the game much more entertaining; distinctive playable roles allow players to tailor to their own playstyles and give the game some variety in the gameplay department.

**Negative**
