

# Torrents

Deploy your Torrents server in 44 seconds

[Launch \(/cloud.scaleway.com/#/signup\)](https://cloud.scaleway.com/#/signup)

## InstantApp details

All you need to know about the Torrents InstantApp

The torrents InstantApp spawns a private server to upload and download your digital files.

The torrents InstantApp provides:

- `ruTorrent`, a web interface to add, list, remove and download your torrents
- `rTorrent`, the software actually used to download your torrents
- An auto installer, to configure your image after its creation
