To everyone who complains about how young Marisa Tomei is to play Aunt May in Civil War

Exactly. Even if she's playing a 40 years old aunt May, with Peter in his 16 years old now, that means Peter was born when she was 24. Peter's parents must be around 27ish at that time. So the math fits. The age calculation is right.

[@eddyhandal](#) "fans" just like to complain, MCU just want to have Spidey cast that can stay around for a long time the way Hugh Jackman does for X-Men, with still in the context of spidey as youth icon.

The only thing that I know about Marisa Tomei is that George Costanza blew a chance to go out with her in a Seinfeld episode.

Eitherway, in the screen it is not how old you are but how old you look. Aunt May has grey hair, weak health, is like a grandmother stereotype and wrinkly. I'm OK with changes, but don't try to bullshit me it is not a major change of the character
