Eclipse Che

(../)

Get Started with Eclipse Che

Use Eclipse Che workspaces at codenvy.com (https://codenvy.com/) or run Che on Windows, Mac or Linux.

How to Get Help

Issues: Sometimes the unexpected happens. If it does, post issues to our GitHub page (https://github.com/eclipse/che/issues). Please follow the issue reporting guidelines. (https://github.com/eclipse/che/blob/master/CONTRIBUTING.md)

Documentation: We put a lot of effort into our docs (https://eclipse-che.readme.io/). If there are improvements or errors, we'd love that feedback.

Chat: Che engineers hang out on Gitter (https://gitter.im/eclipse/che?utm_source=badge&utm_medium=badge&utm_campaign=pr-badge&utm_content=badge), IRC (http://qwebirc.swiftirc.net/?nick=fromwebsite&channels=%23eclipseche) and Slack.

Try Eclipse Che in the Cloud

Codenvy hosts Eclipse Che workspaces with free accounts.

Download Eclipse Che

Install binaries from an Eclipse mirror or build from source.

Workspaces for Existing Repositories

Custom

Create workspaces for any language/framework.

(http://beta.codenvy.com/)

Angular 2
