

The Book

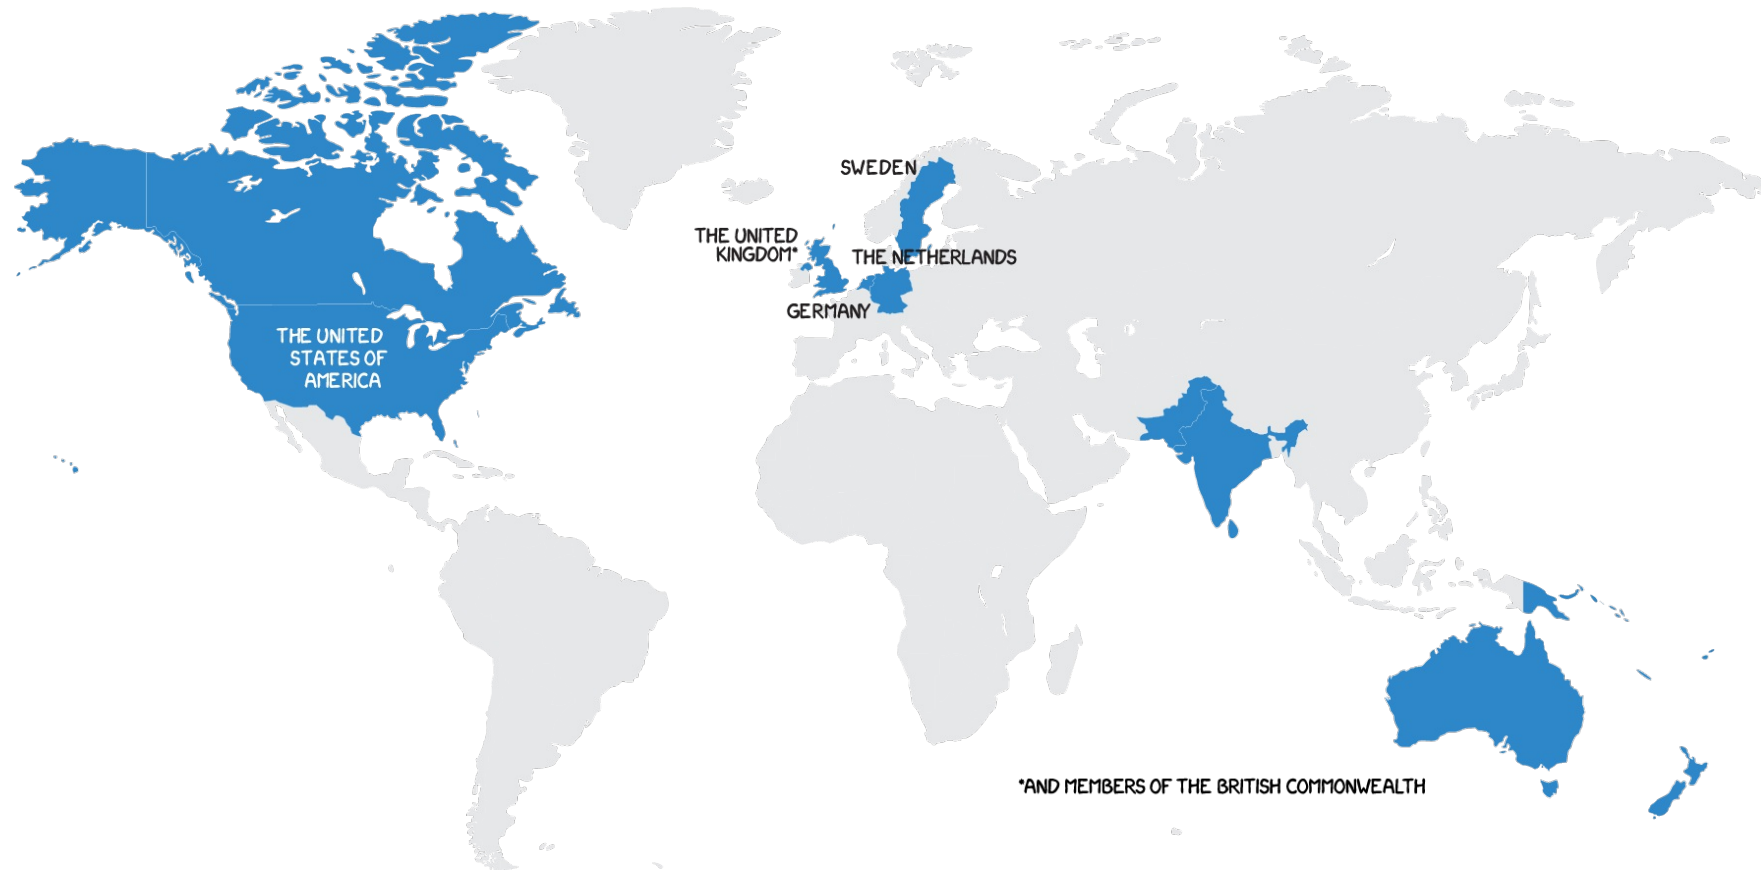

In *Thing Explainer: Complicated Stuff in Simple Words*, things are explained in the style of *Up Goer Five*, using only drawings and a vocabulary of the 1,000 (or "ten hundred") most common words. Explore computer buildings (datacenters), the flat rocks we live on (tectonic plates), the things you use to steer a plane (airliner cockpit controls), and the little bags of water you're made of (cells).

We do not invent the algorithm. The algorithm consistently finds Jesus. The algorithm killed Jesus.
The algorithm is banned in China. The algorithm is from Jersey. The algorithm constantly finds Jesus.
This is not the algorithm. This is close.
