[Description](#)
[Reviews \(0\)](#) [feefo[®]](#)

Description

Customers asked for a new city bike that everyone could afford so weve built the new La Quelda up with an ultra competitive selection of parts and finishing kit. Sturdy wheels from Italian masters Gipiemme. Seatpost, stem and bars from Selcof and a selection of Holdsworth's own-brand Gran Sport finishing kit.

True style never goes out of fashion and that's as true today as it was back in the 1920's when Stanley Holdsworth first started hand-building his own frames. These days however, you dont need to know someone in the trade or have to wait for months to own your own Holdsworth. With the new La Quelda theres a Holdsworth for everybody.

Weight: 10.2kg Med.

Please Note: The lMage if for illustration purposes only, please refer to the Bike Specification below for full compenetry details

This package is sold without rim tape, please add a narrow 700c rim tape to yuor order

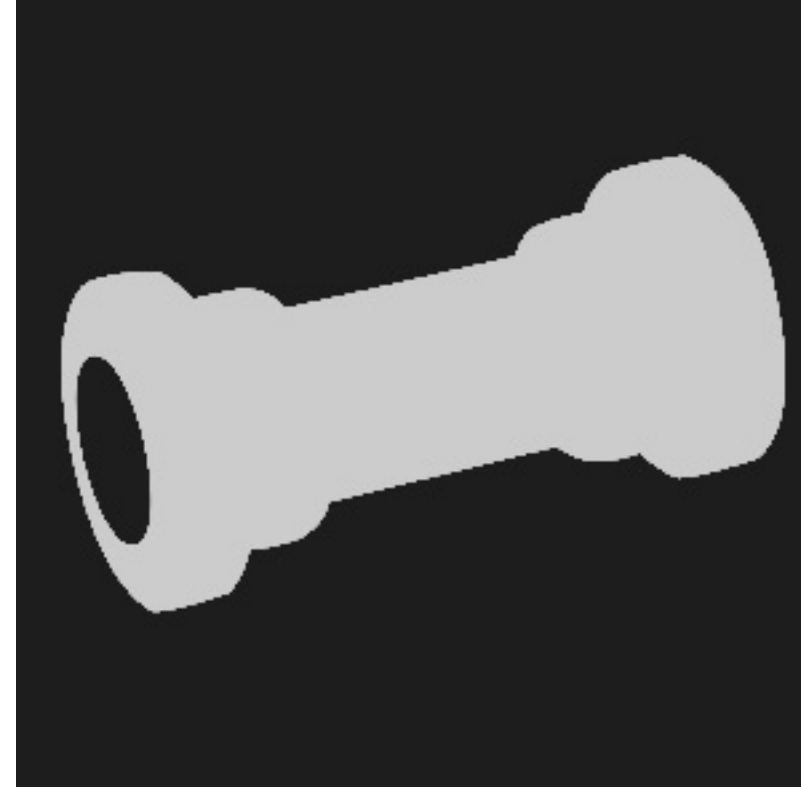

Please Note: the dispatch time for these bikes is approximately 48 hours

Key features

Holdsworth La Quelda Frameset
It's natural that's we'd choose to make the Holdsworth La Quelda frameset from Steel, it's the sensible choice for a retro-modern urban utility bike. Strong, durable and incredibly hardwearing it's the perfect choice for this most practical of all Holdsworth bikes

live help

Direct To Customer
We supply everything we make direct to customer, there's no middle men or wholesalers adding anything to the cost. That's why we're able to offer you unmatched value for money- straight from our warehouse to your door

Yorkshire Born and Bred
Our bikes are designed, tested and assembled in Yorkshire. Every model is put through its paces across the toughest road or off-road routes that the Peak District has to offer. Just like us, they are Yorkshire Born and Bred

Testimonials

[My first decent bike was an orange and blue holdsworth equip. here is his spin...](#)

[I built-up my holdsworth to use as my winter bike and to take part in audax uks...](#)
