Convenient Online Learning Environment

You only have to log in to our site to instantly complete labs in the virtual environment. Anytime. Anywhere. No need to install or equip with tedious extra softwares in your local environment.

Exciting and Stimulating Challenges

You are asked to use your acquired knowledge to challenge the task. The system will decide whether you pass or not, efficiently examining your weak points.

Enjoyment of Hands-On Learning

This is a truly practical process by coding, which has proven to be the most effective way to learn programming.
