

# Release-critical bugs status

Thu May 17 09:00:00 UTC 2018

**Total number of release-critical bugs:** 2563

**Number that have a patch:** 310

**Number that have a fix prepared and waiting to upload:** 56

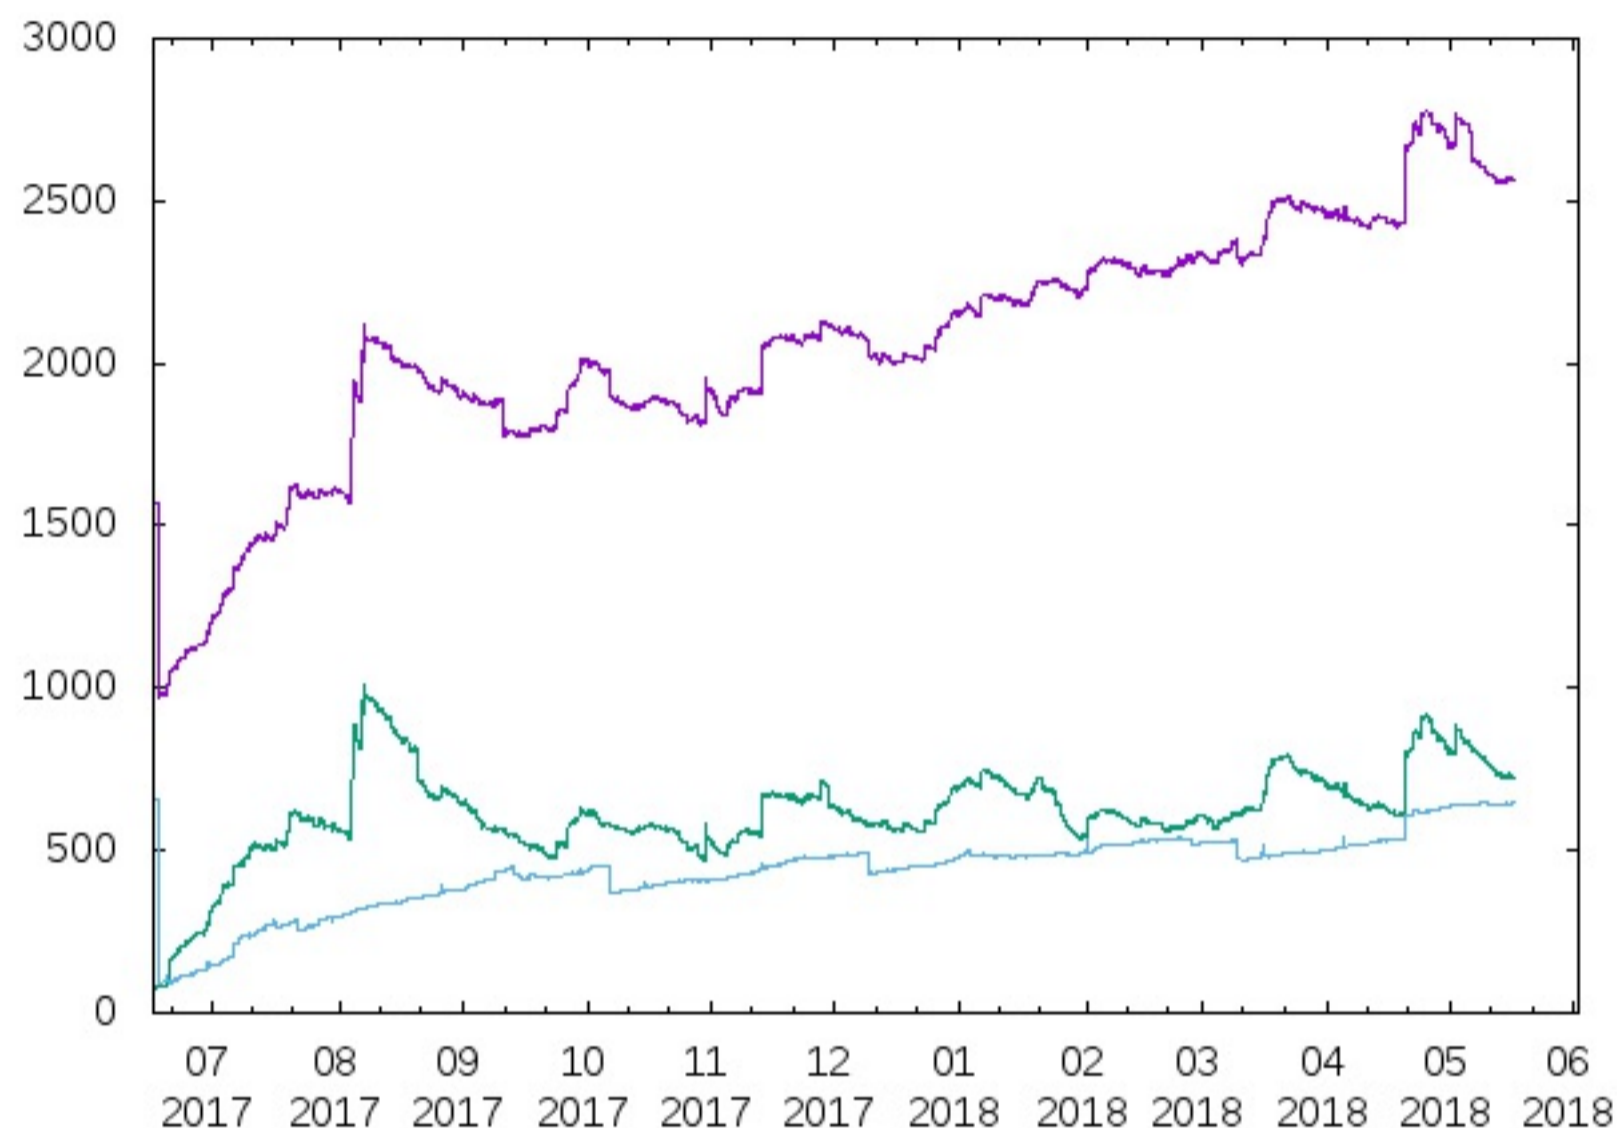

**Number that are being ignored:** 36

**Number concerning the current stable release:** 647

**Number concerning the next release:** 724

**Number concerning the previous stable release:** 34

Number of release-critical bugs

Other graphs:

- [Graph for the last month](#)
- [Graph with all the history](#)

The **dark-violet line** graphs all bugs with release-critical severities; the **dark green line** graphs the number of bugs that are actually a concern for the next release (excluding ignored bugs, bugs on packages not in testing, and bugs whose tags and/or versioning information indicate that they don't apply to testing), and the **cyan line** graphs the number of bugs that are a concern for the *current* stable release.

## Recent changes

**NO** release-critical bugs were closed and **2** were opened.
