lilsanta
★★★★★ Great image. Lightweight. Sturdy.
 January 15, 2017
 Color: T116A | [Verified Purchase](#)
 Great image, lightweight. Feels sturdy with a aluminium body. USB powered and obvisuly. I wish it were powered by a straight USB cable and not a microUSB, simply because they have more of a chance to break with wear and get dirt in them. Not sure if there is a way to avoid turning down the volume everytime you power it on, maybe my oversight.

D Canfield
★☆☆☆☆ Doesn't seem to be USB-C video compatible.
 August 1, 2018
 Color: 1332k-2 | [Verified Purchase](#)
 Purchased this specifically for the USB-C compatibility. The description states that it can be used as a USB-C monitor, but the manual certainly seems to suggest that the USB-C is for power only, and I have tried three USB C devices, none of which have worked successfully with this monitor.

kirchard
★★★★★ Nice Screen
 August 1, 2018
 Color: T116D | [Verified Purchase](#)
 Touch screen does work, but if you are using as a second screen you must use the calibration settings in Windows. Nice screen with nice image, and after calibration the plug & play does work well.
