Dismiss

The banner features a light gray background with faint icons of a laptop, a smartphone, and a code editor. A yellow double-arrow icon is positioned on the right side, and a 'Dismiss' button is located in the top right corner.

## Design Goals

Nicolas edited this page Sep 19, 2018 · 2 revisions

### Misc.

- Rewrite in a modern stack (i.e. not Perl/Catalyst)

### Ingestion

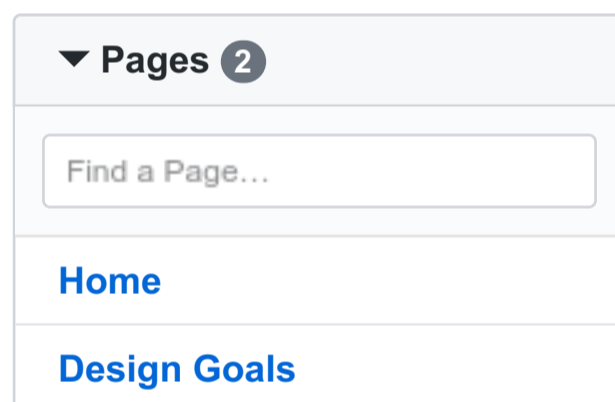

- More resilient ingestion : don't lose messages if message ids conflict, are not ascending or other unexpected conditions happen
- Log the errors in a more accessible format
- Store the raw messages or the whole response body

### Message display

- Convert malformed messages to proper html
- Display messages containing a hrefs properly

### Search

- Search URLs (both URL contents and target)
- Search neighbouring posts / conversations
