The debut full length album from Roxi Drive.

A collaboration of pure Synth fusion, let these retro sounds take you back in time to a fun filled 80s summer. Dancing at the Miami beach clubs, cocktails at sunset on Santa Monica Beach, horror movies and popcorn at the movie theater and long night drive's, cruising under a star filled sky.

Enjoy this nostalgic trip to a neon paradise wrapped up in a digital world and dance with the STRANGERS OF THE NIGHT.

brainary Cause it's awesome. Favorite track: Synthicide.

Eric Van Lustbader 80's electronica lives again! Like The Cars, John Foxx, Motels? Roxi Drive is for you. Updated, richer, more complex, and great fun.

David Rotenburger Synthwave super diva Roxi Drive returns with an absolutely amazing full length album of epic proportions! This is retro times infinity with constant reminders of all the fun that the 80's held for us! She has tremendous talent comparable to Madonna and Laura Branigan indeed! Every song here is solid and supremely memorable including a phenomenal cover of the Stacy Q classic "Synthicide"! Roxi Drive gives to the world something it truly needs and that is the joy of nostalgia! Heaven awaits!!! Favorite track: Strangers of the Night.
