The Prog Mind:

"Their transitions are seamless, their ideas are cinematic, and their music evokes emotions that you will recognize instantly."

ProGGnosis:

"The Deconstruction Of Light by Electric Mud is one of the best instrumental prog albums I have listened to this year. Highly recommended!"

Prog Critique:

"The Deconstruction of Light" explore avec succès une palette varié de mondes musicaux, et donne à chacun des styles abordés une couleur qui lui est propre, un album qui vaut amplement le détour!"

The Rocktologist:

52 minutes of great instrumental music. A great album! Enjoy!

The Closet Concert Arena:

Electric Mud takes you on a joy ride through a cavernous section of the prog garden; dark and eery at times but never letting go of your hand. Electric Mud has the power to light up a seemingly impenetrable darkness - and you'll want to be there when the beacon burns through the haze...

The Progressive Rock Files (JerryLucky.com):

What great instrumental craftsmen these guys are, and also how gifted they are at musical composition and arrangements. This is so much more than just a heavy rock or heavy prog album, there are many delicate moments of sheer beauty performed with passion and yet restraint. Especially in the longer songs where we experience music that is made up of multiple segments that are beautifully stitched together creating a kind of cinematic feel.

Rockmuzine:

Ondanks de elementen die je hoort van onder andere Pink Floyd en Deep Purple, heeft Electric Mud wel een geheel eigen sound. Deze bestaat uit een merkwaardige mix van diverse stijlen. Deze passen wonderwel goed bij elkaar.

Nick Bradey *This is an amazing band , ! I purchased all 3 releases . Not a retrospective band : they take the music forward to new levels , All their releases are impeccable ,*

Lars Kohlmeyer *Their compositions are becoming more complex as years pass by. All the influences of the band mix perfectly. One of the best made independent progressive albums I've discovered lately. Favorite track: canary in a cathouse.*

Andrea Weiss *What a fantastic new album. The CD is purely instrumental and includes a wonderful kind of powerful and quiet sounds that are so harmoniously united. Electric Mud combines different styles in a grandiose way. The music is a journey through a wonderful world of sounds and makes you dream. The CD "The Deconstruction of Light" is highly recommended. Keep up your music. Favorite track: heads in beds.*

Ari Mallory *It's a time machine for me. This album really takes you to many different places.*

Fred Pine *What a phenomenal 3rd album from these guys. Heads in Beds in particular has the soothing sound that Pink Floyd has. Production and musicianship has definitely been improved over the years. Favorite track: heads in beds.*
