Transcript

A man tells Dilbert, "You'll be performing a 'Turing test' on our new artificial intelligence software." Dilbert sits at a desk. The researcher continues, "Try to determine if the responses on your screen come from our computer or a human in the next room." Dilbert says, "I'll ask it to write a strategy for our company." The computer responds, "Our strategy is to visionize quality resources that enhance earnings." Dilbert thinks, "Hmm." Dilbert says, "I'll ask it how to motivate employees." The computer response says, "Reorganize often to improve focus. Redefine work as 'opportunity' and increase it daily. Take time to ask for opinions then explain why they're wrong." Dilbert tells the researcher, "It must be a computer because there's no human intelligence. Unless . . ." Dilbert looks into the next room and sees the Boss sitting at a computer. Dilbert says, "Nice try, boss."
