The Israeli Ministry of Health announced today that the “Green Pass” for vaccinated expires when 6 months have passed after the second dose and **now also 6 months after the third (“booster”) vaccination.**

## Changes in his green daughter

As of 3.10.21, the design of the green character will be changed and the following changes will apply in its validity

Those who received three vaccines and passed a week from the third vaccine - the mark will be valid for six months from the third vaccine.

Those who received two vaccines and passed one week from the second vaccine (two weeks in the modern vaccine) - the mark will be valid for six months from the second vaccine.

Those who recovered from Corona - the mark will be valid for six months from the date of confirmation of recovery.

Those who have recovered and received a vaccine - the mark will be valid for six months from receiving the vaccine.

Boys and girls aged 12 and under who received a negative answer in a PCR test as part of 'Education Shield' - there is no change in the validity of the order, the mark will be valid for 7 days, until the end of the seventh day after the test.
