ABOUT THIS GAME

Shattered Pixel Dungeon is a Roguelike Dungeon Crawler RPG with pixel art graphics. Every game is a unique challenge, with four different playable characters, randomized levels and enemies, and hundreds of items to collect and use. The game is simple to get into, but strategy is required if you want to win!

Choose Your Hero

Start the game by choosing a hero, which can be improved and customized as you quest through the dungeon!

- 4 heroes: Warrior, Mage, Rogue, and Huntress. Each hero has a different playstyle.
- 8 subclasses which let successful heroes further specialize their abilities.
- 13 unique lategame abilities that grant special power at the end of a game.
- Over 100 talents, which let you incrementally power up your hero as you level up.

Explore the Dungeon Depths

Every run though the dungeon is different, with randomized layouts, enemy placement, and items!

- 5 distinct dungeon regions over 26 floors, each with their own enemies and room layouts.
- Over 60 enemies, 30 traps, and 5 detailed bosses to test your skills.
- Over 100 equipment items, including powerful wands, rings, weapons, and armor.
- Over 150 regular items to find and craft, each with their own uses.

A Full Experience on Mobile or PC

Shattered isn't a limited mobile game, it's a full game designed from the ground up to work on any device!

- (coming before release!) Two interface modes that take full advantage of large or small screens.
- Full support for touch and mouse input, full keyboard and controller input coming soon!
- Free updates once every ~2 months, with fixes, improvements, and additions.
- Active and helpful communities on several social platforms.

Shattered Pixel Dungeon is open source software under the GPLv3 License, and is based on the freely available source code of Pixel Dungeon! It started as a project to rebalance Pixel Dungeon but has steadily grown into its own game over the last 7 years!
