Dr Sandro Demaio

@SandroDemaio

Switzerland is now reporting deaths by vaccination status. PLEASE get triple vaccinated, when you're eligible.

Switzerland: COVID-19 weekly death rate by vaccination status, All ages, Jan 1, 2022

Death rates are calculated as the number of deaths in each group, divided by the total number of people in this group. This is given per 100,000 people.

Note: Data coverage includes both Switzerland and Liechtenstein. Unvaccinated people have not received any dose. Partially-vaccinated people are excluded. Fully-vaccinated people have received all doses prescribed by the initial vaccination protocol. The mortality rate for the 'All ages' group is age-standardized to account for the different vaccination rates of older and younger people.
