Twitter deal temporarily on hold pending details supporting calculation that spam/fake accounts do indeed represent less than 5% of users

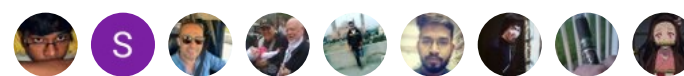

**Twitter estimates spam, fake accounts comprise less than 5% of users -filing**

Twitter Inc estimated in a filing on Monday that false or spam accounts represented fewer than 5% of its monetizable daily active users during the first quarter.

Dear Mr Musk could you possible build a smaller cheaper electric car for me to buy here in the UK. They are too expensive at the moment

Thanks  
Kind regards  
Paul
