The Future of Java

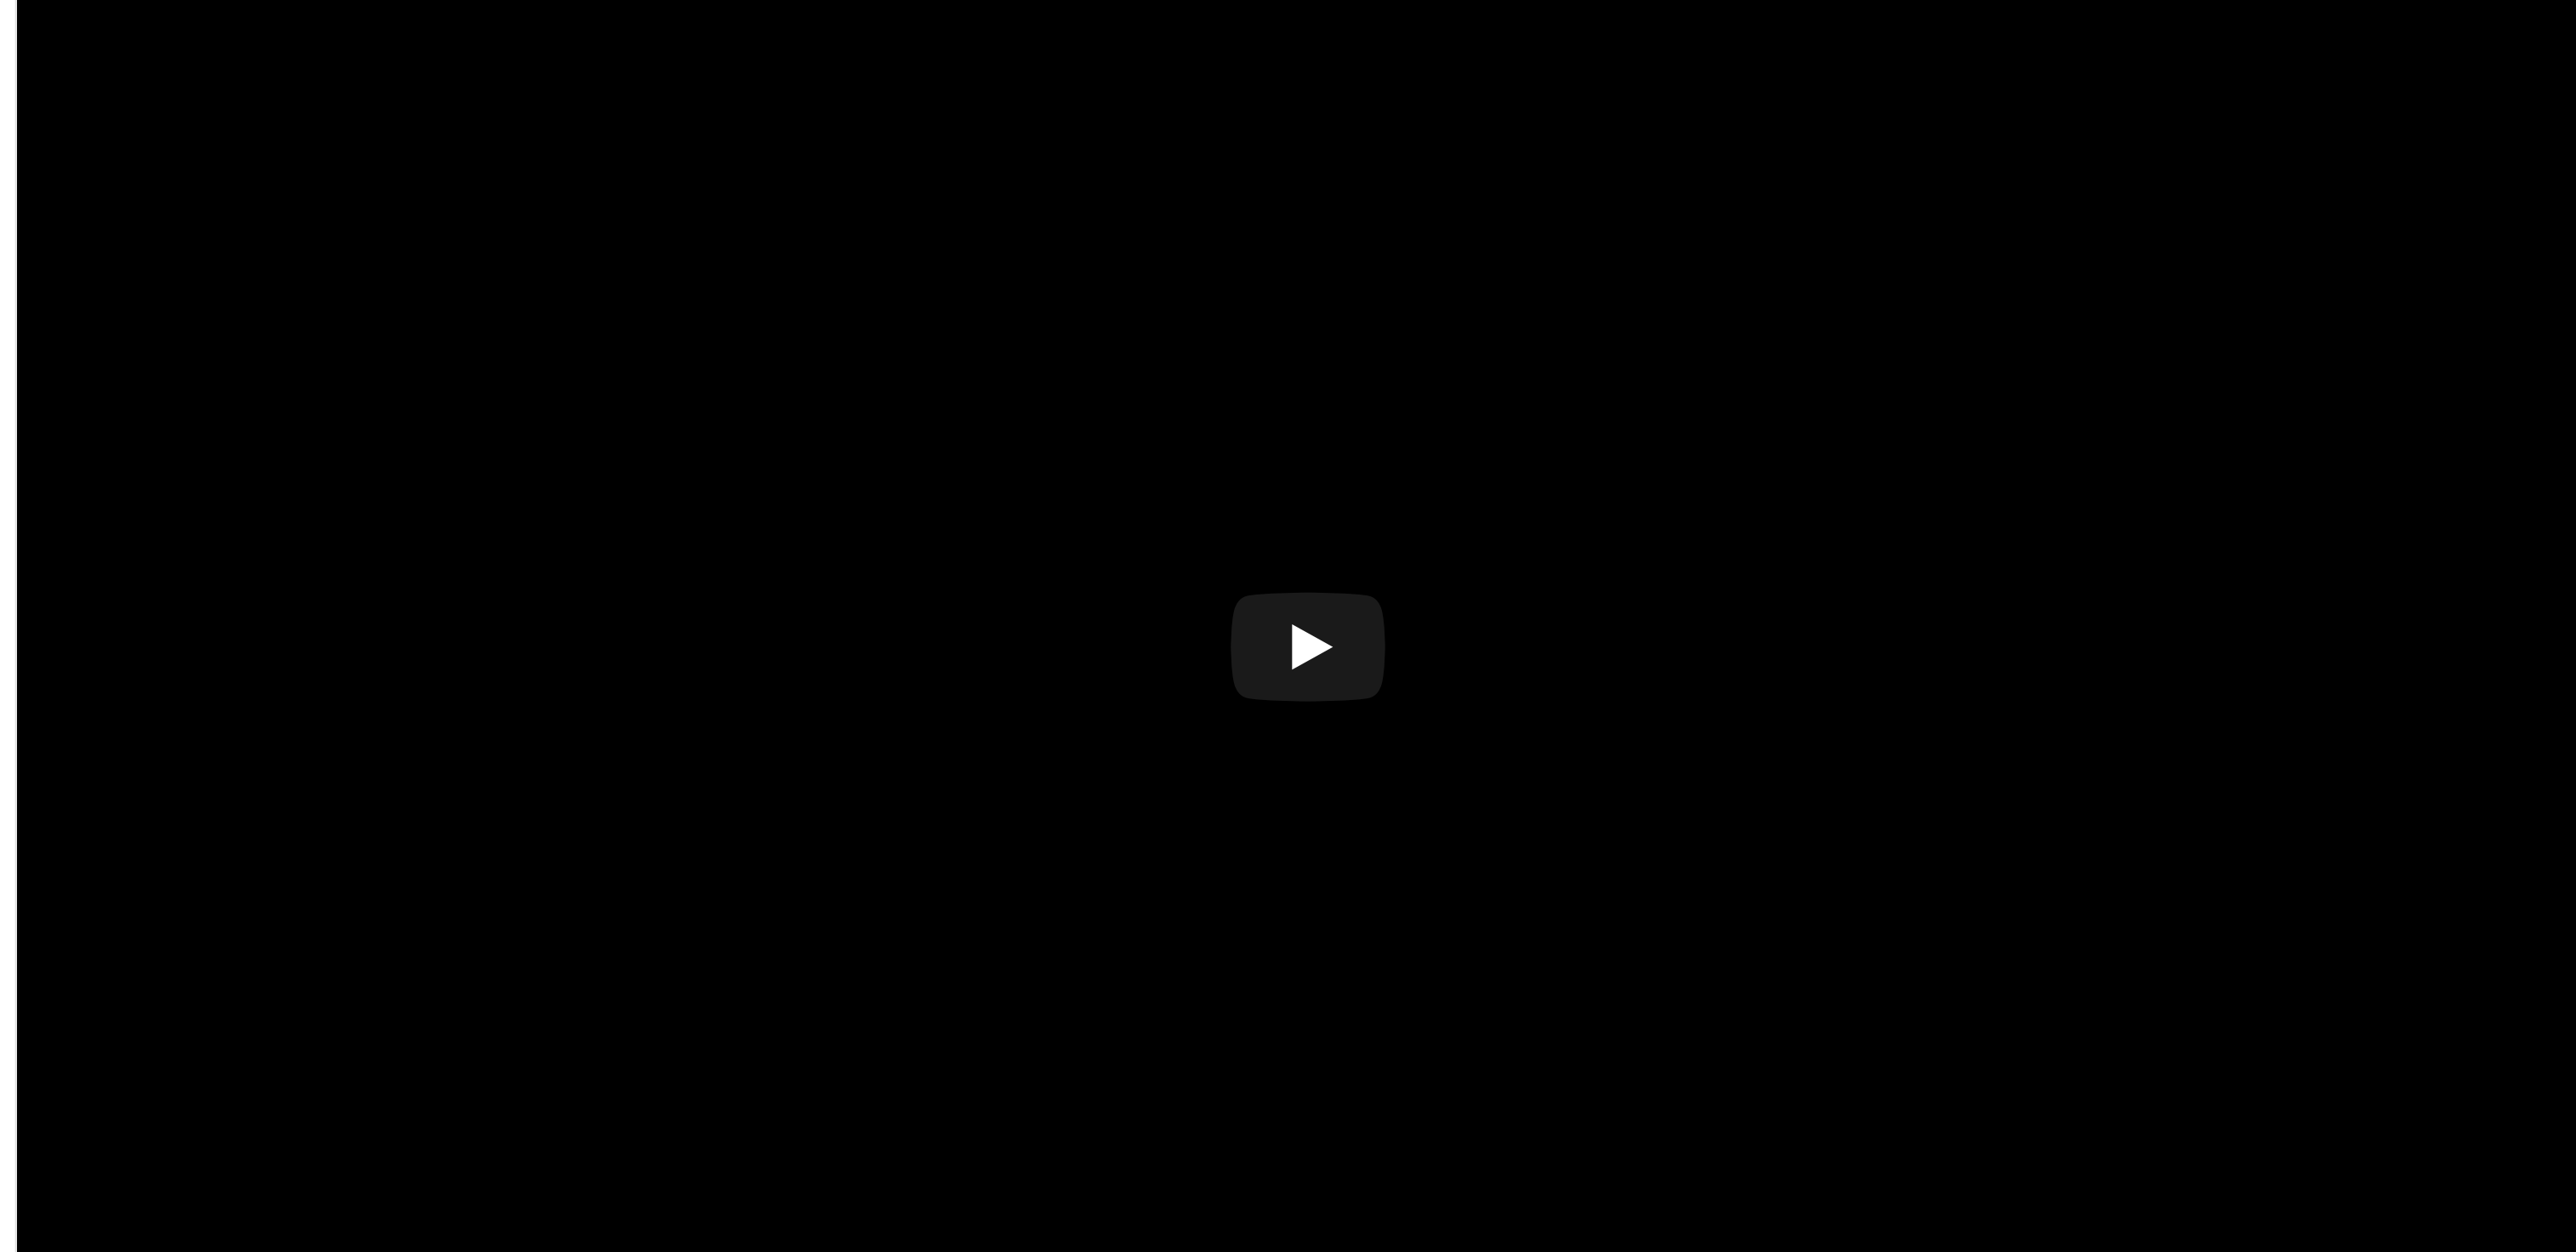

Learn about the future of the Java Platform

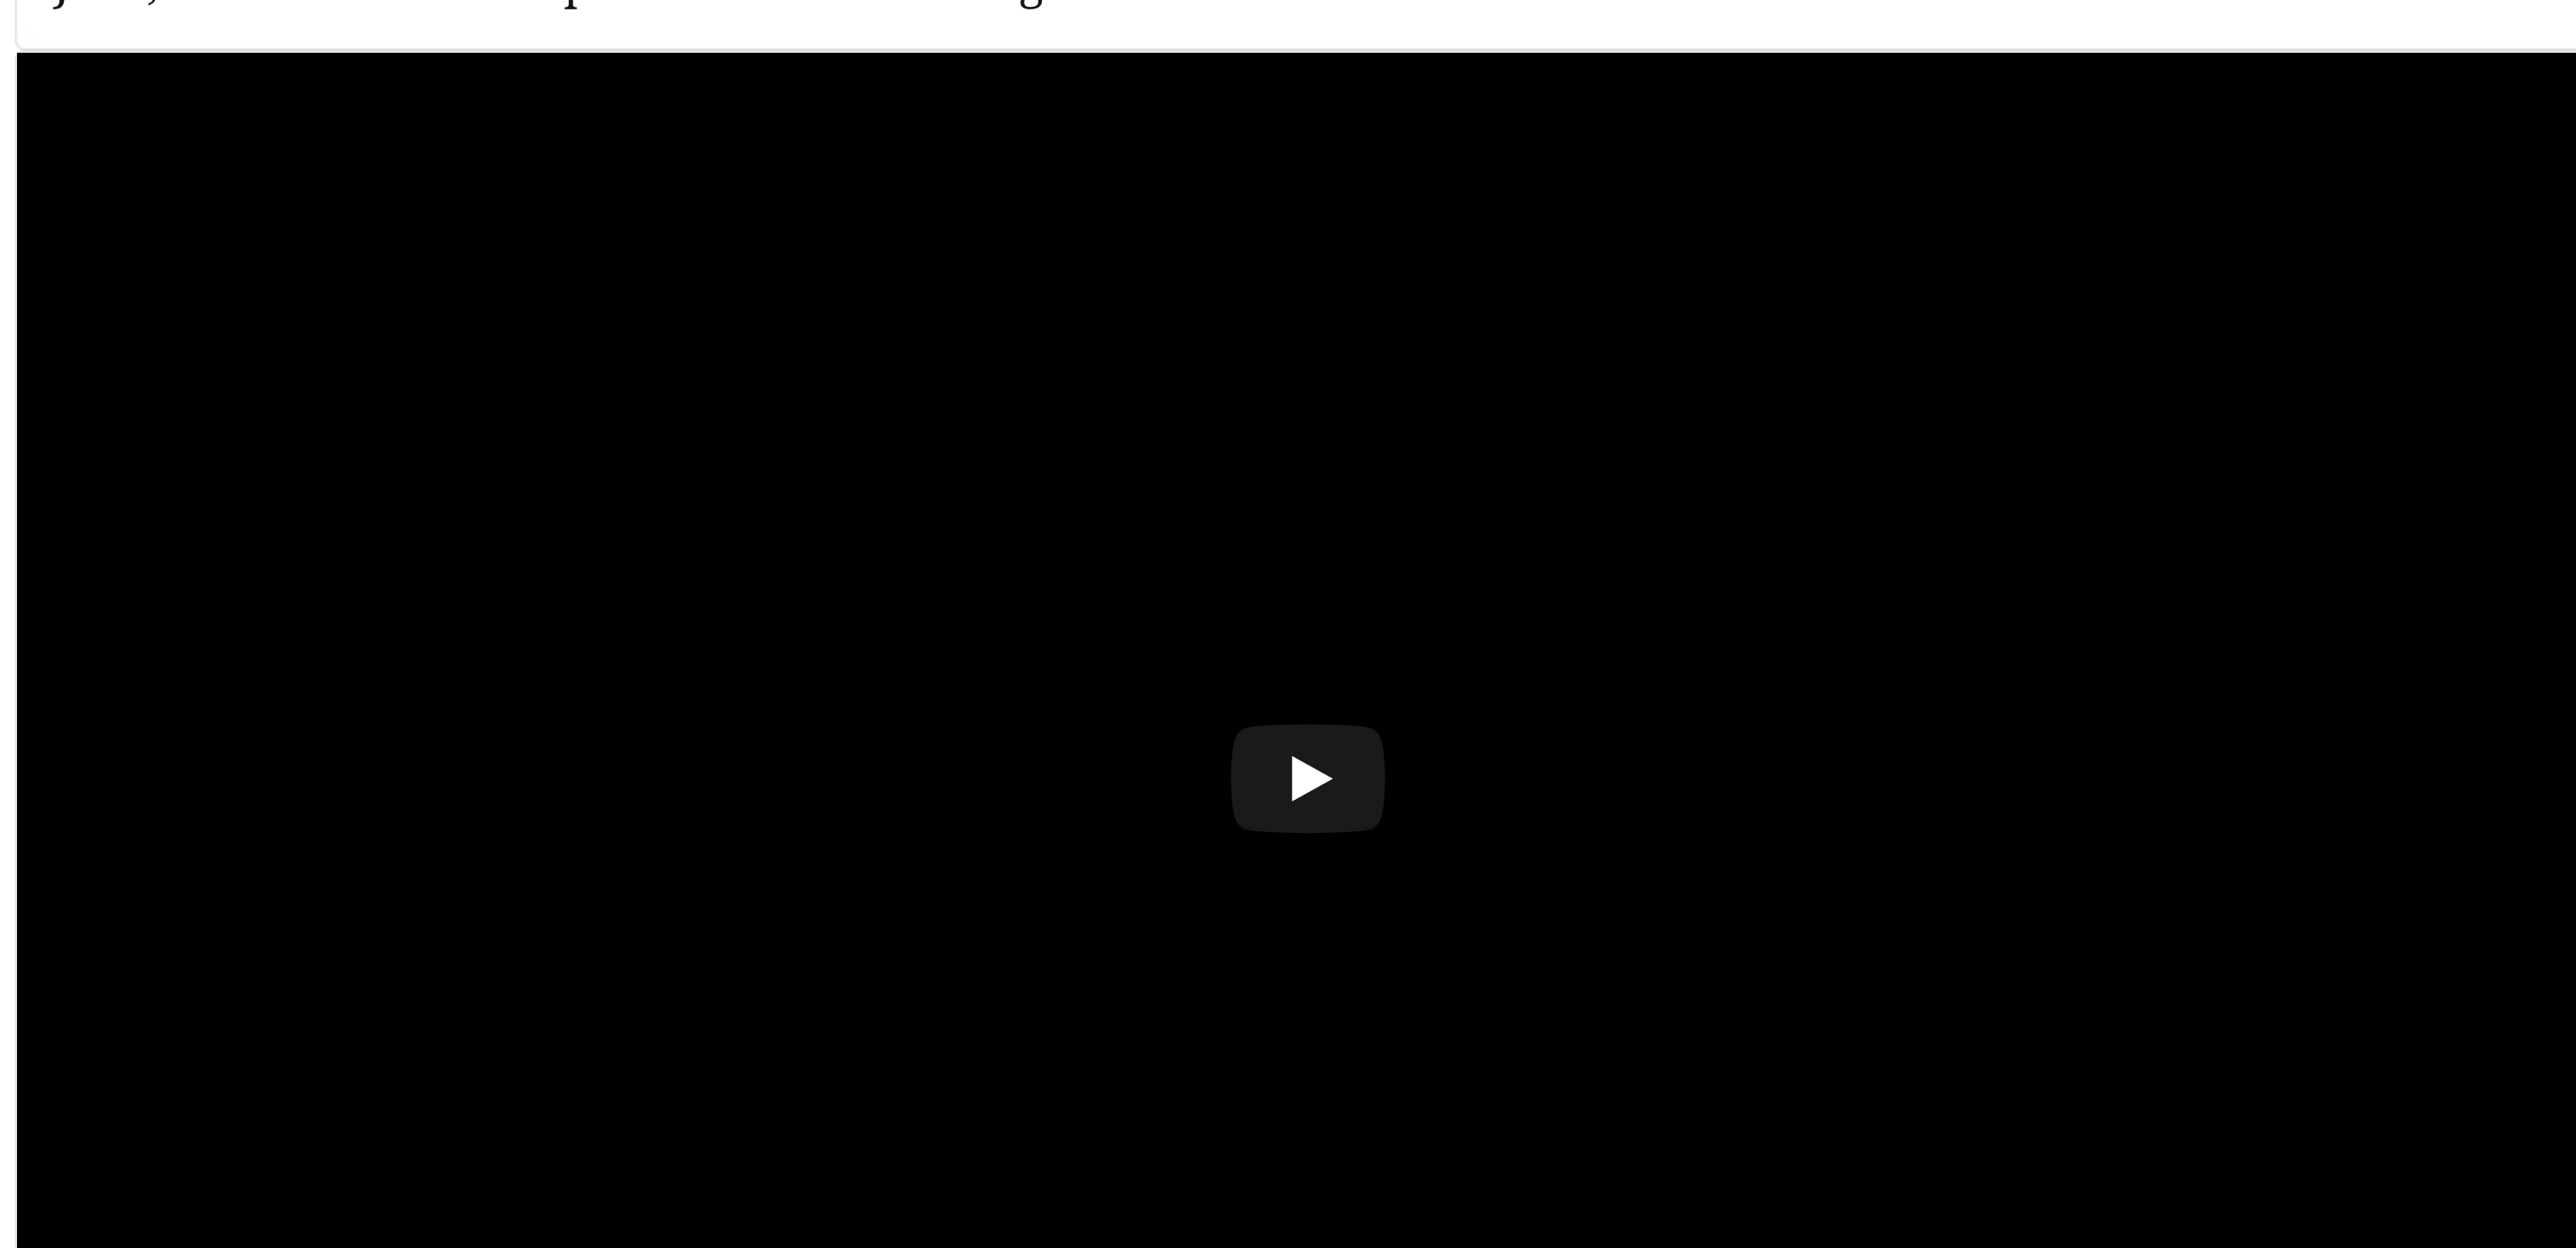

Moving Java Forward: Keynote
Learn how Oracle's ongoing Java leadership and stewardship is creating a contemporary language and platform that helps developer productivity.

Stewardship
With decades of history and millions of developers worldwide, how does the Java Platform continue efficiently moving forward? Java's chief architect Mark Reinhold tells us.

Java Language Features: Spring 2022 Edition
Pattern matching, switch expressions, Record types, oh my! Gavin Bierman talks about the latest innovations in Java, as well as a sneak peak at what's coming.

Modern, Scalable Concurrency for the Java Platform
In this session learn about Project Loom, which aims to reinstate the thread as an efficient unit of concurrency by adding a lightweight implementation of threads to the Java platform.
