

Trump has already obliterated any defense he could bring against the NY AG case -- by pleading the Fifth, he effectively admitted liability on *ALL* 440 questions the AG's office asked when they deposed Trump last month.

Exactly! Trump had 440 opportunities to tell the truth and he refused.

I believe he offered to settle but @TishJames turned him down.

I remember reading a quote from Trump made several years ago in which he says he never settles. I wonder if he had a diaper blowout when he learned that his settlement offer to Tish was rejected. A minority woman telling Trump to shove it. Hallelujah!
