Undone Computer Science
@undonecs@fediscience.org

Please help us spread the word about Undone CS 2026: the second conference on Undone science in Computer science

• A conference in computer science to pause and reflect on the epistemological and ethical dimensions of the field, through the concept of undone science

• Organised by computer scientists, for colleagues from across the field, but also social scientists, philosophers and historians of science, and other scholars, working on computer science

• Luxembourg, 23-25th March 2026 (hybrid)
• Calling for short talk proposals (1-3 pages abstracts)
• Submission deadline: October 9th 2025 (anywhere on Earth)
• Post-proceedings model: we will send a call for full papers after the conference
• Some travel funding available for speakers

Full call for presentations at undonecs.org/2026/cfp.html
