

# CENSORSHIP IS QUIETLY DECIDING WHICH GAMES YOU CAN BUY.

We are fighting back.

Some games vanish. Not because they broke the law but because someone decided they shouldn't exist.

For 48 hours, these games are free, because if a game is legal, you should be free to buy it.

These games are at risk of disappearing.

We believe that if a game is legal, you should be able to buy it now and decades from now.

We fight back by making these games visible, accessible, and undeniable.  
Freedom to buy is freedom to create.
