Neuralink, société d'Elon Musk, révèle que plus de 10 personnes sont désormais implantées avec sa puce à travers le monde. Un cap non négligeable tant le domaine dans lequel elle évolue est complexe.

Welcome

We and our 221 **partners** wish to store and access information on your devices (such as cookies and pixels), and collect personal data on this site to process it along with both known and future information (such as identifiers, browsing history, preferences, purchases, phone number, postal, IP and email addresses, precise geolocation, etc.).

This is used to develop and provide you with services, content, commercial offers, and advertisements across your various devices and screens (including by email, mail, texts, phone, audio, and video), to personalize and measure them, and to conduct audience research and analysis.

You can "accept all" and withdraw your consent at any time via the "cookies" footer link. You can also "set detailed preferences" to object to more limited processing activities. These choices remain valid for 6 months.
