CALVIN-40

OPTIMIZING INDUSTRY WITH A HUMANOID

WANDERCRAFT

Autonomous humanoids carrying loads for industry.

MEET CALVIN

Walking at home and outdoors with **Eve**

Discover Eve, the world's first self-balancing personal exoskeleton, designed for use at home and in the real world.

Our prototype personal exoskeleton aims to offer upright motion and walking independence for individuals with severe mobility disabilities, providing the benefits of standing, walking, bending, and restoring the feeling of natural walking motion to everyday life.

CONTACT US

We are recruiting!

We're always looking for passionate, creative people who combine their expertise with high standards of excellence and a commitment to our mission.

Expect to be challenged by complex problems while contributing to multiple innovations.

We are recruiting for a number of open positions in healthcare, humanoids and beyond.
