License Options for ApexCharts

ApexCharts is offered under a **dual-license model** to support individuals, startups, and commercial products of all sizes.

Community License (Free)

For individuals, non-profits, educators, and small businesses with **less than $2 million USD in annual revenue**.

✅ What's allowed:

- Personal, educational, or non-profit use
- Commercial use by small orgs (< $2M annual revenue)
- Modifications and redistribution (with attribution)

🚫 Not allowed:

- Use by companies or entities over $2M/year revenue
- Use in competing charting products
- Sublicensing under different terms

➡ By using ApexCharts under this license, you confirm that **you qualify as a Small Organization**.

Commercial License (Paid)

Required if **you or your affiliated organization earns $2 million USD or more per year**.

✅ What's included:

- Use in internal tools and commercial applications
- Modifications and app-level distribution
- 12-month subscription with updates & support

🚫 Not allowed:

- Redistribution in toolkits, SDKs, or platforms
- Use by unlicensed developers
- Competing charting products

OEM / Redistribution License (Paid)

Required if you are **embedding ApexCharts into a product or platform used by other people**, such as:

- No-code dashboards
- Developer platforms
- Embedded BI tools
- White-labeled apps or SDKs

✅ What's included:

- Redistribution rights for 1 application or product
- 12-month subscription with updates & support

✅ OEM **not required** if your app simply renders static charts and users **cannot** configure or interact with them.

⚠️ License Acceptance

By installing ApexCharts (e.g., via `npm install apexcharts`), you are agreeing to the applicable license based on your usage:

- Community License (if under $2M revenue)
- Commercial License (if over $2M revenue)
- OEM License (if redistributing to third-party users)
