[Introducing the AT Protocol Community Fund](#)

Projects

- [ATmosphereConf](#): All sponsorship, ticket sales, and expenses will be managed through the Community Fund.
- [Location Data on ATproto](#): building commons infrastructure for geo data and venues

Support us on Open Collective

We have a collective available with our listed projects. You can support individual projects as they are announced, or add to the fund directly to support community activities.

Individuals and companies are welcome to support us there. Please get in touch if you're interested in funding a particular initiative.

AT Protocol Community Fund - Open Collective

Supporting the AT Protocol with infrastructure, open source code development, and community initiatives like events and meetups.
