These are the space-weather conditions right now, the strongest proton storm in over 20 years:

#space #satellites #ESA Euclid ...and 2 more

In case you are a satellite: don't go outside, stay indoors.

Oh, wait...

Daniel Fischer
@cosmos4u@scicomm.xyz 54m

@knud Literally off the scale ... according to x.com/Vincent_Ledvina/status/2... it has surpassed the October 2023 radiation storm and could be the strongest ever. Just perfect for this year ...
