Show personalized ads, depending on your settings

If you choose to "Reject all," we will not use cookies for these additional purposes.

Non-personalized content and ads are influenced by things like the content you're currently viewing, your location (ad serving is based on general location). Personalized content and ads can also be influenced by things like video recommendations, a customized YouTube homepage, and tailored ads based on your activity, like the videos you watch and the things you search for on YouTube. We also use cookie data to tailor the experience to be age-appropriate, if relevant.

Select "More options" to see additional information, including details about managing your privacy settings. You can also visit [g.co/privacymore](http://g.co/privacymore) at any time.[Reject all](#)[Accept all](#)[More options](#)**Climate change**

United Nations • Climate change refers to long-term shifts in temperatures and weather patterns. It is caused by natural factors, such as changes in the Earth's orbit or volcanic eruptions, as well as human activities, such as the burning of fossil fuels like coal, oil and gas.
