Journaling

Data Control

A safe space for your thoughts.

Designed to store your interests, questions, ideas, favorite quotes, reminders, reading and meeting notes easily and future-proof.

“I mostly use it for work: keeping daily notes & meeting notes. It's the best solution I've found to managing my tasks (and I only use a fraction of the features there).”

User Feedback by oskr

Always up-to-date notes between all your devices.

With encrypted file syncing, you'll always have your notes backed up and securely available in real-time on any device.

[Whiteboards](#) BETA

A new canvas for your thoughts.

Place any of your thoughts from the knowledge base or new ones next to each other on an infinite canvas to connect, associate and understand in new ways.

Think faster, think better!

By thinking and writing with Logseq, you'll gain confidence in what you know and stop worrying about forgetting anything.
