Certains instrumentalisent le décès tragique d'un membre d'un service d'ordre d'extrême-droite à Lyon pour dénoncer l'antifascisme comme responsable et générateur de violences.

Inversion nauséabonde.

Le fascisme génère l'antifascisme, pas l'inverse. Il n'y a pas d'équivalence (et personne ne doit mourrir).

You wrote your post in French, but you marked it as being English. You should edit the post to correct that language setting. That will allow users with translators to understand your post. If you can't edit it, then you should delete the post and post it again.

Edit: Apologies to Mr. Duteil. I meant to post this as a direct message to him, not to publicly criticize the way he posted.
