Comme les mainteneurs de NextCloud Office n'ont pas prêté attention aux arguments contre leur décision d'utiliser Microsoft-OOXML comme format par défaut, j'ai fait une pull-request avec le code qui permet d'avoir le format OpenDocument par défaut :

github.com/nextcloud/richdocum...

Je vous encourage fortement à retooter, à voter et à commenter sous cette PR, qui sera plus difficile à ignorer qu'une issue « résolue ».

Since the NextCloud Office maintainers have not taken into account the arguments against their decision to use Microsoft OOXML as the default format, I submitted a pull request with code that sets OpenDocument as the default format:

github.com/nextcloud/richdocum...

I strongly encourage you to retweet, upvote, and comment on this PR, which will be harder to ignore than a "resolved" issue.

Ping @tdforg @libreoffice @nextcloud

GitHub

fix(format): makes OpenDocume...

Maintainers answered: they will not approve the feature and will stick to OOXML, because (imaginary, IMHO) users would "complain".

I think this is a big mistake, and that their very real (angry) users are going to actually complain.
