Pedestrian path

5 datasets

See more statistics

Territory coverage

Scheduled public transit

348 Territories covered out of 1,156

387 Transport offers available

75.8% of the population covered

Are you producing transport data ?

Territories, transport operators… : you have to publish data about traveler information on this website. Our team is here to guide you to put your data into quality, into conformity and to publish it.

Producer information

Who is reusing data from transport.data.gouv.fr ?

A significant number of diverse and varied re-users use the data referenced on the NAP, much to our delight! Some of them showcase their services, applications, projects, studies… on our Declared reuses page. Be the next! Learn more.

They help us achieve our mission 🙏
