# Crystal clarity. Touch precision.

Experience 2k resolution brought to life with intuitive touch controls. Designed for seamless interactions and stunning visuals.

**2160x1440**  
resolution

**300**cd/m<sup>2</sup>  
brightness

**178°**  
viewing angle

**12.5"**  
visible display

# Minuscule Charger.

Experience the power of our minuscule Gallium Nitride charger. With 65 watts of charging power over USB-C, this charger is 30% smaller than traditional chargers, making it easy to take on the go. Plus, its advanced technology ensures efficient and reliable charging for your devices.

# Updates.

Firmware updates for the BIOS, Embedded Controller and SSD are just a click away with the power of the LVFS (Linux Vendor Firmware Service).

# Open warranty.

Laptops designed for open-source software need open warranties. Our 1-year limited warranty allows you to take your computer apart, replace parts, install an upgrade, and use any operating system and even your firmware, all without voiding the warranty.
