

About The Nerd Reich

A newsletter about the tech authoritarian politics of Silicon Valley plutocrats

The Nerd Reich (formerly Parallel Mirror) is a newsletter about tech authoritarianism, billionaire extremism, the Network State and the meta politics of California. While this publication mostly focuses on the San Francisco Bay Area, it will also cover these topics wherever they occur. This newsletter started as my public notes on what's happening as tech billionaires and propagandists attempt a takeover of local politics. Longer explanation [here](#).
