ARCHIMATE® 4 SPECIFICATION

C260.

The ArchiMate 4 Specification, a standard of The Open Group, defines an open and independent modeling language for Enterprise Architecture that is supported by different tool vendors and consulting firms. It provides a notation to enable Enterprise Architects to describe, analyze, and visualize the relationships among business domains in an unambiguous way. Version 4 represents a substantial evolution of the standard, including housekeeping to clean up and streamline the standard to improve its ease of adoption and use.

Purchase a Hardcopy

A hardcopy is available to purchase from [Van Haren Publishing](#).
