# Government-backed attack alerts

[Send feedback](#)

## On this page

[What is a government-backed attack alert?](#)

[Secure the user's account](#)

**Tip:** If you're using your personal Google Account, learn how to protect it from [government-backed attackers](#).

As an administrator for your organization, you'll receive an alert if a user is detected as a possible victim of a government-backed attack. For more details and instructions on viewing this alert in the alert center, see [View alert details](#) and [Government-backed](#)

## &gt; Reports &amp; monitoring

1. [Reset the password](#) of any account with suspicious activity.
2. We recommend adding and enrolling the user in [2-Step Verification](#).
3. Ask the user to take additional steps to [secure their account](#).

For more information on protecting your Google Workspace or Cloud Identity account, see [Use settings to improve security](#) or [Identify and secure compromised accounts](#) (Google Workspace only).
