

The image is a composite of two screenshots. The background is a browser window displaying a French article on the website 'discourse.nixos.org'. The article's title is 'DINUM (France) is switching to NixOS' under the 'Announcements' section. The text discusses the French Direction interministérielle du numérique (DINUM) switching to Linux-based workstations. A specific sentence is highlighted in blue: 'Linux within the state administration, following successful tests on Bureautix workstations, alongside 50 PCs from a previous Linux transition'. The browser's address bar shows the URL 'discourse.nixos.org/t/dinum-france-is-switching-to-nixos/77558'. Overlaid on the right side of the browser window is a YouTube cookie consent dialog. The dialog has the YouTube logo and the text 'A Google company'. It features a title 'Before you continue to YouTube' and a list of purposes for using cookies and data: 'Deliver and maintain Google services', 'Track outages and protect against spam, fraud, and abuse', and 'Measure audience engagement and site statistics to understand how our services are used and to enhance the quality of those services'. There are three main options: 'Accept all', 'Reject all', and 'Manage settings'. The 'Accept all' option is currently selected. The dialog also includes a link to 'en' (English) and a 'Manage settings' button.
