Space organization

The Laptop Dock is an excellent way to step up your office organization game. Storing your laptop vertically saves desk space, especially when using an extra monitor. Thanks to micro-suction and its solid construction, the Laptop Dock stays firmly in place ensuring your laptop's safety.

Sturdy construction

The use of solid wood and solid aluminum means the laptop holder makes for a durable and reliable laptop rest.

Width regulation

The laptop stand supports devices up to **34mm** thick and offers adjustable width for a secure fit.

Scratch protection

The felt and flock lining of the opening protects your laptop from scratches and provides optimal ventilation.
