

HOW HTTPS WORKS

Last updated: August 21, 2025. [See What's New](#)

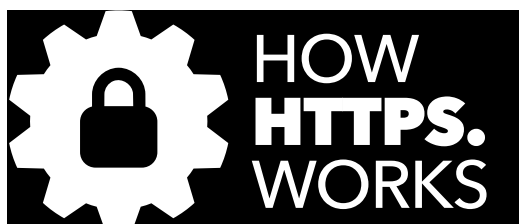

How HTTPS works ...in a comic! 🌈 🎉 🍕

Have you ever wondered why a lock icon appears on your browser URL bar? And why is it important? We did too, and this comic is for you!

Follow the adventures of Certificat, Browserbird, and Computger as they explain why HTTPS is crucial for the future of the web and how it all works together.

Don't let the bad crabs get you (you'll know what we mean in the comic). Get to know HTTPS and why it is essential to your privacy.
