WHY TESMART

Built for Complex Setups

TESmart builds professional KVM solutions for multi-monitor, high-refresh, Mac, PC and hybrid workstations — especially where basic switches fall short.

Why TESmart

Complex Display Support

Built for multi-monitor, high-resolution and high-refresh workflows.

Mac & PC Expertise

Designed for mixed-device setups involving Thunderbolt, DisplayLink, MST, DP1.4, HDMI 2.1.

Long-Term Ownership

Supported by setup assistance, firmware updates, trade-in programs and direct technical service.

FOR GEEKS, BY GEEKS

Built With Users

Real feedback from real setups helps shape how TESmart products switch, connect and support complex desktops.

A user reported that the cursor could move into an inactive extended display during mixed-screen use. The feedback helped guide a clearer EDID control experience for future products.
