His task was not yet done. After perishing alongside the Balrog, he returned to Middle-earth: not as he once was, but wielding even greater power as Gandalf the White. His transformation complete, rough-hewn robes gave way to pristine cloth, and gnarled wood to an elven-crafted, pure white staff.

This 1:1 prop replica of the Staff of Gandalf the White begins where the original did: with a complete 3D scan of the screen-used staff, originally crafted by the 3Foot6 art department for The Lord of the Rings trilogy.

Those scans served as the foundation for sculptor Leonard Ellis, who used them as direct reference to build the final digital model, ensuring the replica holds true to its source with complete fidelity. No detail has been left to interpretation.

Cast in polystone with a hollow metal tube at its core, the staff is engineered for the weight and feel of the real thing. Substantial in the hand and built to last in the collection.

FEATURES

- 1:1 scale prop replica;
- Made primarily from polystone;
- Has a hollow metal tube inside for weight and support;
- Replica of Gandalf the White's Staff as seen in The Lord of The Rings;
- Made with reference to the original prop from 3D scans;
- Digitally sculpted by Leonard Ellis.

“Our authentic prop replicas and collectibles are designed by the very same artists who have worked on the three films, so effectively they come straight from Middle-earth.”

Richard Taylor – CEO & Co-founder, Wētā Workshop

A NOTE ON OPEN EDITION COLLECTIBLES

This figure is an Open Edition piece, meaning it is not restricted to a specific number of reproductions. However, this does not guarantee Wētā Workshop will continue to produce the statue in the future. We recommend purchasing your Open Edition statue early to avoid disappointment. Should you miss out, please contact us at support@Wētānz.co.nz. Demand will determine if this collectible is reproduced.

It takes hundreds of hours to design, sculpt, model make, mold, and paint the prototype for each new Middle-earth piece. Whether it be a prop replica, beautiful environment, or iconic character, we treat our collectibles with the same level of care and attention to detail that we bring to our film work.

SHIPPING UPDATE

Given the scale of this statue, we're unable to immediately estimate an accurate shipping cost. This will be calculated once we receive the final weight and dimensions from the manufacturer prior to delivery. Shipping will show at the checkout as PENDING until then.

Please note: We use this shipping method for statues that are large and complex, to make sure we're charging you exactly what it costs to ship your statue.

We've done our very best to get an estimate on shipping dimensions and weight:

265mm x 2240mm x 165mm at 7.6kg
