

Climate change

United Nations • Climate change refers to long-term shifts in temperatures and weather patterns. These shifts are driven by human activities, such as burning fossil fuels like coal, oil and gas.

Why hemp farming is winning over farmers in Gironde

In the Gironde region, 17 farmers are participating in an experiment to test the cultivation of hemp, a hardy plant that requires little water and no pesticides. This ancient crop allows for the revitalization of land abandoned due to the challenges faced by vineyards and offers numerous opportunities in textiles, construction, and food. Although still marginal in the region, this test harvest is showing encouraging results and hemp is well-suited to the challenges of climate change. ...
