WHERE WE DO BUSINESS

Traditional approaches to targeting and tracking, counter-proliferation, and counterterrorism rely on expensive and, often, unavailable assets. Regardless of the mission, intelligence, surveillance, and reconnaissance efforts demand a modern approach to succeed in today's conflicts – this is where Toka comes in.

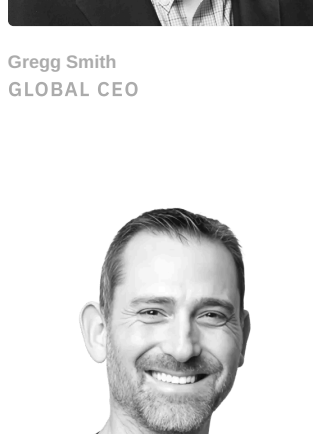

Toka helps trusted governments keep citizens safe and defend against terror and crime by developing cutting-edge intelligence and force protection capabilities.

Toka Impact:

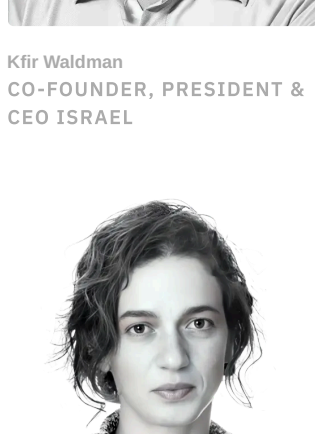

- Increase Operational Capabilities
- Reduce Friction and Risk
- Support Strategic, Cyber, and Tactical Efforts
- Lawful & Transparent Digital Intelligence Collection

Leadership

Founded in 2018 by leaders with unparalleled experience in the strategic, defense, and corporate worlds, Toka works through diverse international strategic and tactical spheres to develop and deliver unique, best-in-class technology for Military and Law Enforcement. TokaGroup, Inc. is headquartered in Maryland, and backed by investors such as Andreessen Horowitz, Eclipse Ventures, Entree Capital, Dell Technologies Capital, Capri Ventures, and Upfront Ventures.

Backed by Top-tier Investors

The best in the business believe in what we're building.

Toka only works with militaries, homeland security organizations, intelligence, and law enforcement agencies in the United States and its closest allies. We regularly review this select list of countries, using outside assessments on a range of issues including civil liberties, rule of law, and corruption.

We comply with and are regulated by the United States Department of Treasury and Israel's Defense Export Control Agency.

Let's Discuss Your Mission Requirements

Toka helps trusted governments keep citizens safe and defend against terrorism, crime, and near-peer adversaries through exquisite signals intelligence & access capabilities. Learn more about how Toka can help your agency today.
