obsd a.ms

1100 VMs deployed

“We are **OpenBSD Amsterdam** since 2018, we value giving back to the community. **We donate €10 per VM** and **€15 per VM** for every renewal to the OpenBSD Foundation, with dedicated servers running vmm(4)/vmd(8) to host opinionated VMs.

We are home for many wonderful projects and can't wait for you to join our kind fans.”

OpenBSD.amsterdam

€71 **/ year**

1G RAM **50G** HDD + 10G backup storage

Want more memory or storage?
+€10 / year for extra **1G** RAM
+€50 / year for extra **50G** HDD

You can always increase memory and/or add a second disk later.
Dedicated **IPv4** (DHCP assigned) and dedicated **IPv6** (/64).
Console access with vmctl(8) using cu(1).
Reverse DNS is done through our PTR daemon.
We accept Credit Card, iDEAL, PayPal and SEPA (bank transfer).

Book your VM

Your VM configuration

OpenBSD 8.0-release + errata with siteXX.tgz install set

You can choose between the **default** disk layout (example below), or select /home to be either **5G** or **1G** in size and /var to take the remaining storage.

```
# disklabel sd0 | tail -n12
#            size       offset  fstype [fsize bsize  cpg]
  a:      1024.0M           64  4.2BSD   2048 16384    1 # /
  b:       752.0M      2097216    swap
  c:     51200.0M            0  unused
  d:      3401.4M      3637312  4.2BSD   2048 16384    1 # /tmp
  e:      5088.0M     10603328  4.2BSD   2048 16384    1 # /var
  f:      2048.0M     21023552  4.2BSD   2048 16384    1 # /usr
  g:      1024.0M     25217856  4.2BSD   2048 16384    1 # /usr/X11R6
  h:      7176.6M     27315008  4.2BSD   2048 16384    1 # /usr/local
  i:      2048.0M     42012640  4.2BSD   2048 16384    1 # /usr/src
  j:      6144.0M     46206944  4.2BSD   2048 16384    1 # /usr/obj
  k:     22493.3M     58789856  4.2BSD   2048 16384    1 # /home
```
